# EXCLUSIVE VENDOR DASHBOARD

Manage the store, get quick insights about products like clothing, accessories, etc., and enhance your lifestyle with our robust dashboard.

# TOP-FEATURES

## ORDER FREQUENCY

Vendors are allowed to check the frequency of orders from every customer.

## ADD CATEGORIES

Vendors can freely add/edit categories and sub-categories available on the platform.

## DELIVERY CHARGES

Vendors can decide the delivery charges applicable per order, depending on their location.

## CUSTOMERS DETAILS

Vendors get all the information regarding the order details, addresses, phone numbers, etc.

## REJECT/ACCEPT ORDERS

Vendors can accept/reject orders as per the product's availability.

## INSTANT NOTIFICATIONS

Vendors get instant notifications every time an order is placed.

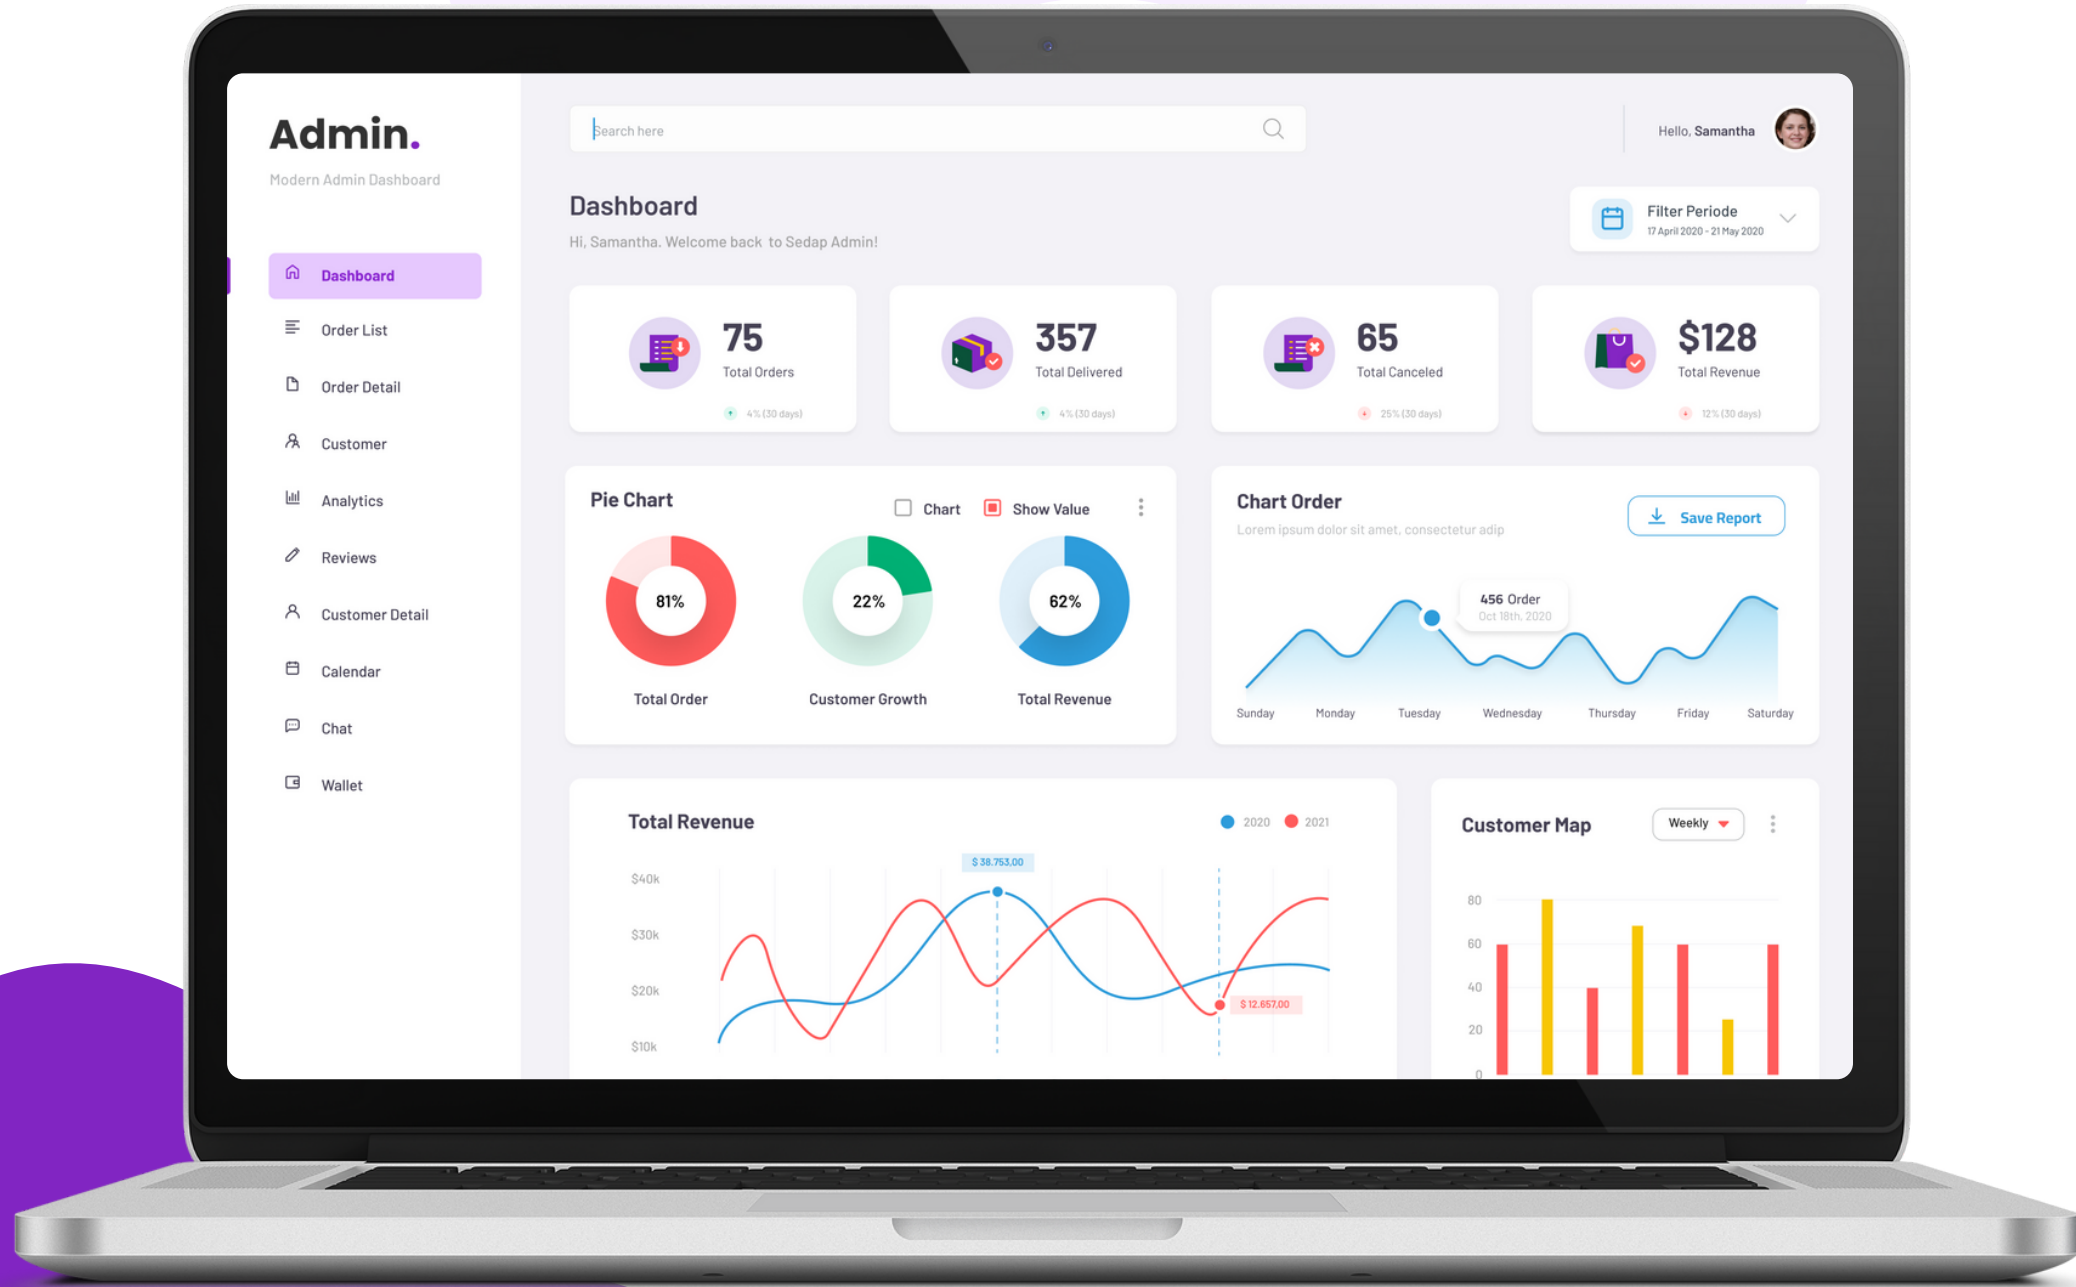

# Advanced Analytics

Interactive dashboards help you get reports based on how customers found you and provide data regarding their locations.

# ROBUST ADMIN DASHBOARD

Get a powerful dashboard to help admins manage and monitor crucial details, identify business opportunities, and more.

# TOP-FEATURES

## Advanced Analytics

Help admins get accurate reports regarding customers' information, including location, order, time, etc.

## Secure Panel

Allow admins to protect your data with our highly secure and robust admin dashboard.

## Subscription Plans

Let admins add & list different subscription plans for customers and help them avail benefits.

## Promo Codes

Admin can offer promo codes, which help businesses drive more traffic and sales.

## Setup Commissions

Admin can decide the commission they want to offer to the merchants.

## Admin Login

Anyone with e-commerce business credentials can easily log in/sign up for the panel.

### **Influencer Collaboration**

Enable admins to collaborate with influencers in the lifestyle space, promoting their products, and services.

### **Category Management**

make it easy for admins to manage the vendor categories and arrange them to make them visible on customer websites and apps.

### **Fleet Management**

Let admins view, manage, and track the delivery agents via an advanced panel.

### **User Subscription**

Admins can list and add various subscription plans, helping customers avail of benefits.

### **Warehouse Management**

Help admins check and manage all the warehouses, assign deliveries, and update the status from a single panel.

### **Split Payment**

Admin can decide the split percentage on every order. The amount is split between the vendor and admin.

## Product Management

Admin can add, edit, delete, sort, and categorize products from a single panel.

## Create Sub-Admin

Make it easy for admins to manage any number of vendors from the panel and create a sub-admin to handle a few categories.

## Manage Taxes

Let admins define the base tax and variable tax to be paid, depending on the location.

## Order Request

Admins are allowed to confirm or reject order requests by adding the reason for rejection.

## Content Management

Give admins the authority to edit, delete, or publish content posted on the e-commerce website pages and app.

## Email Notifications

Allow admins to receive notifications for all the new customers every time they purchase on the marketplace.

# Get Organized With Our Lifestyle App

Unlock a world of possibilities with our intuitive lifestyle app.
