Admin Panel

Patient App

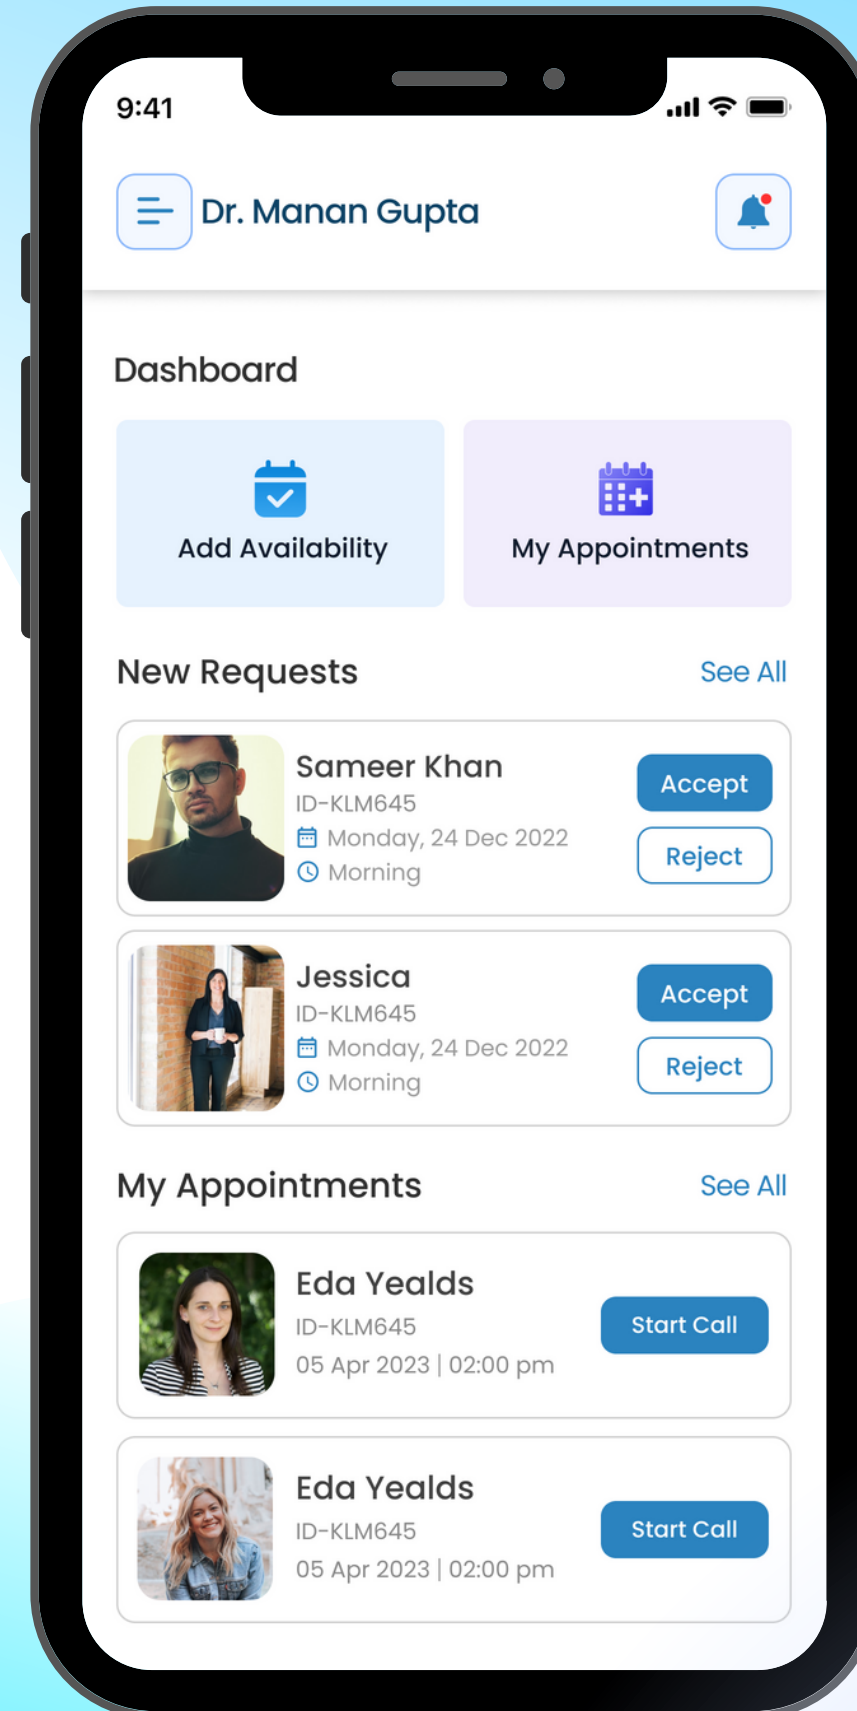

# Doctor Application & Panel

Offer highly secure and robust digital care ecosystems for doctors of all specialties.

# TOP-NOTCH FEATURES

## Manage Availability

---

Allow doctors to update or edit their working hours on the software, allowing patients to choose a slot.

## Get Notifications

---

Receive notifications whenever a patient chooses a slot, keeping doctors updated.

## Instant Payments

---

Secure and integrated payment methods help you collect payments from patients.

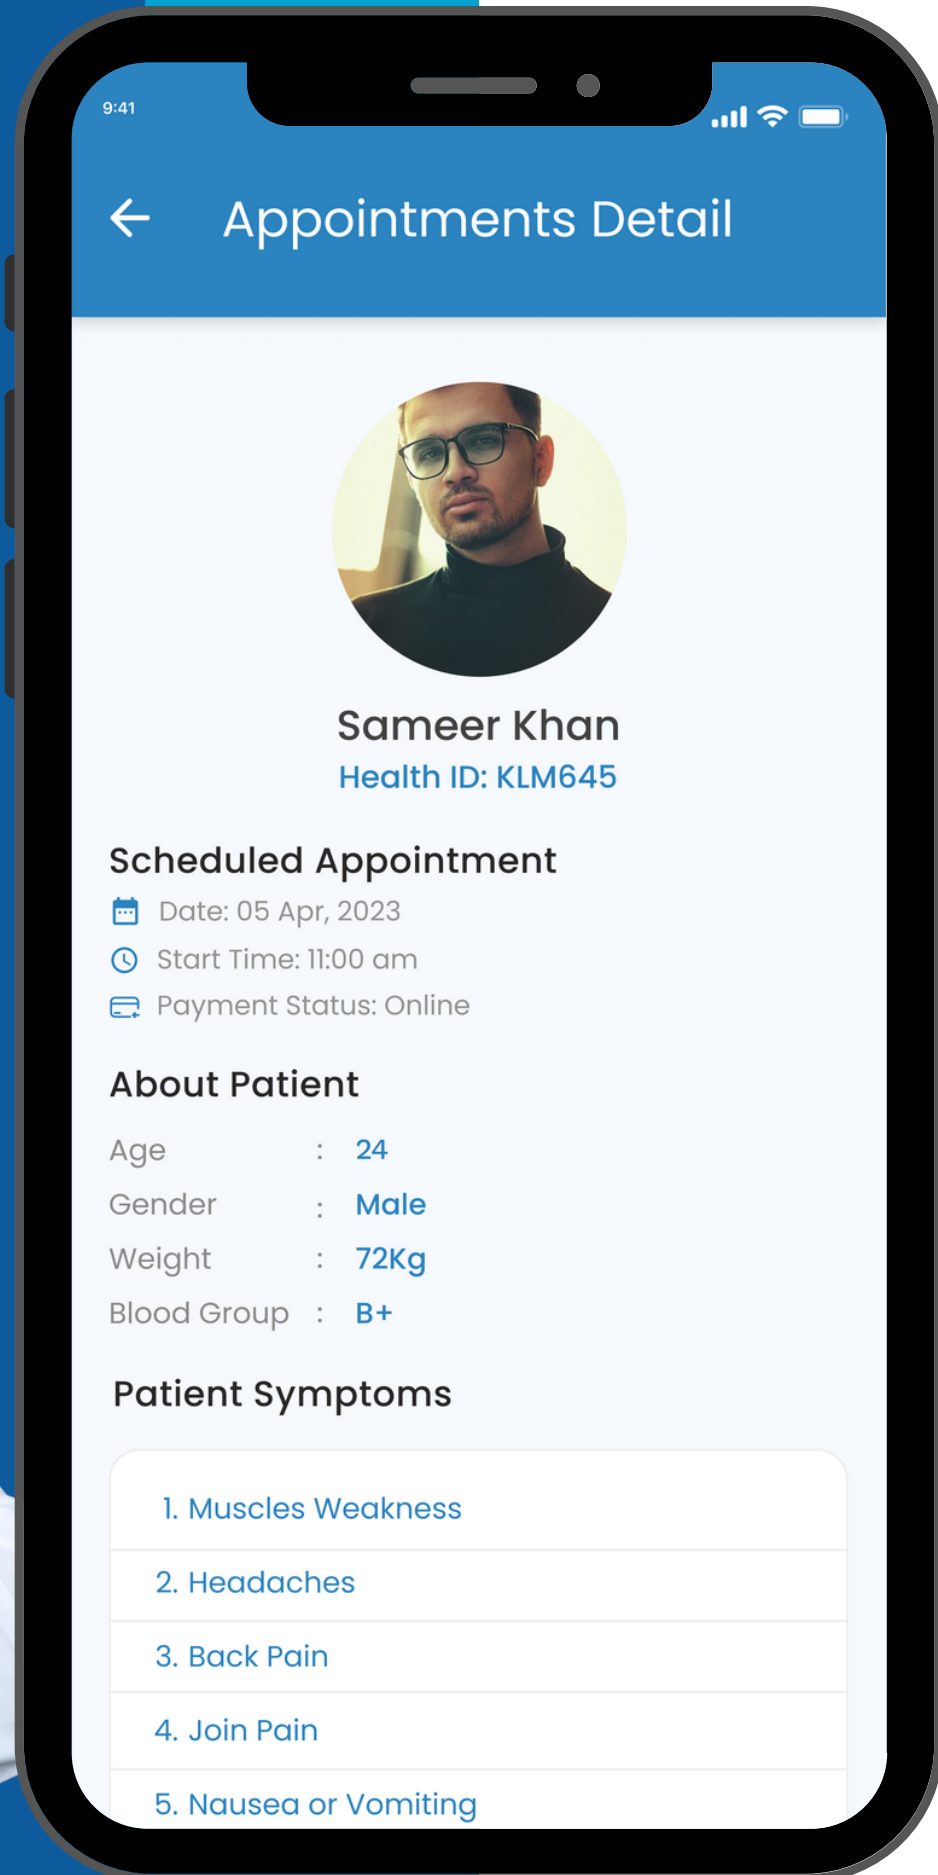

## Track Earnings

---

Manage and monitor your earnings from one place effectively.

## History

Doctors are allowed to check the patient's medical history by viewing the history feature.

## Upload Prescription

Allow doctors to upload the prescription through the app.

## Patient Referral

Doctors are allowed to refer their patients to other doctors if needed.

# Robust Patient Application

Deliver top-quality and secure healthcare services with our digital healthcare solution.

### Search & Filter

Patients can easily find and filter doctors using the search & filter options.

### Instant Appointments

Patients are allowed to schedule appointments at their convenience.

### Push Notifications

Patients will get automated reminders as per their appointments, saving them time.

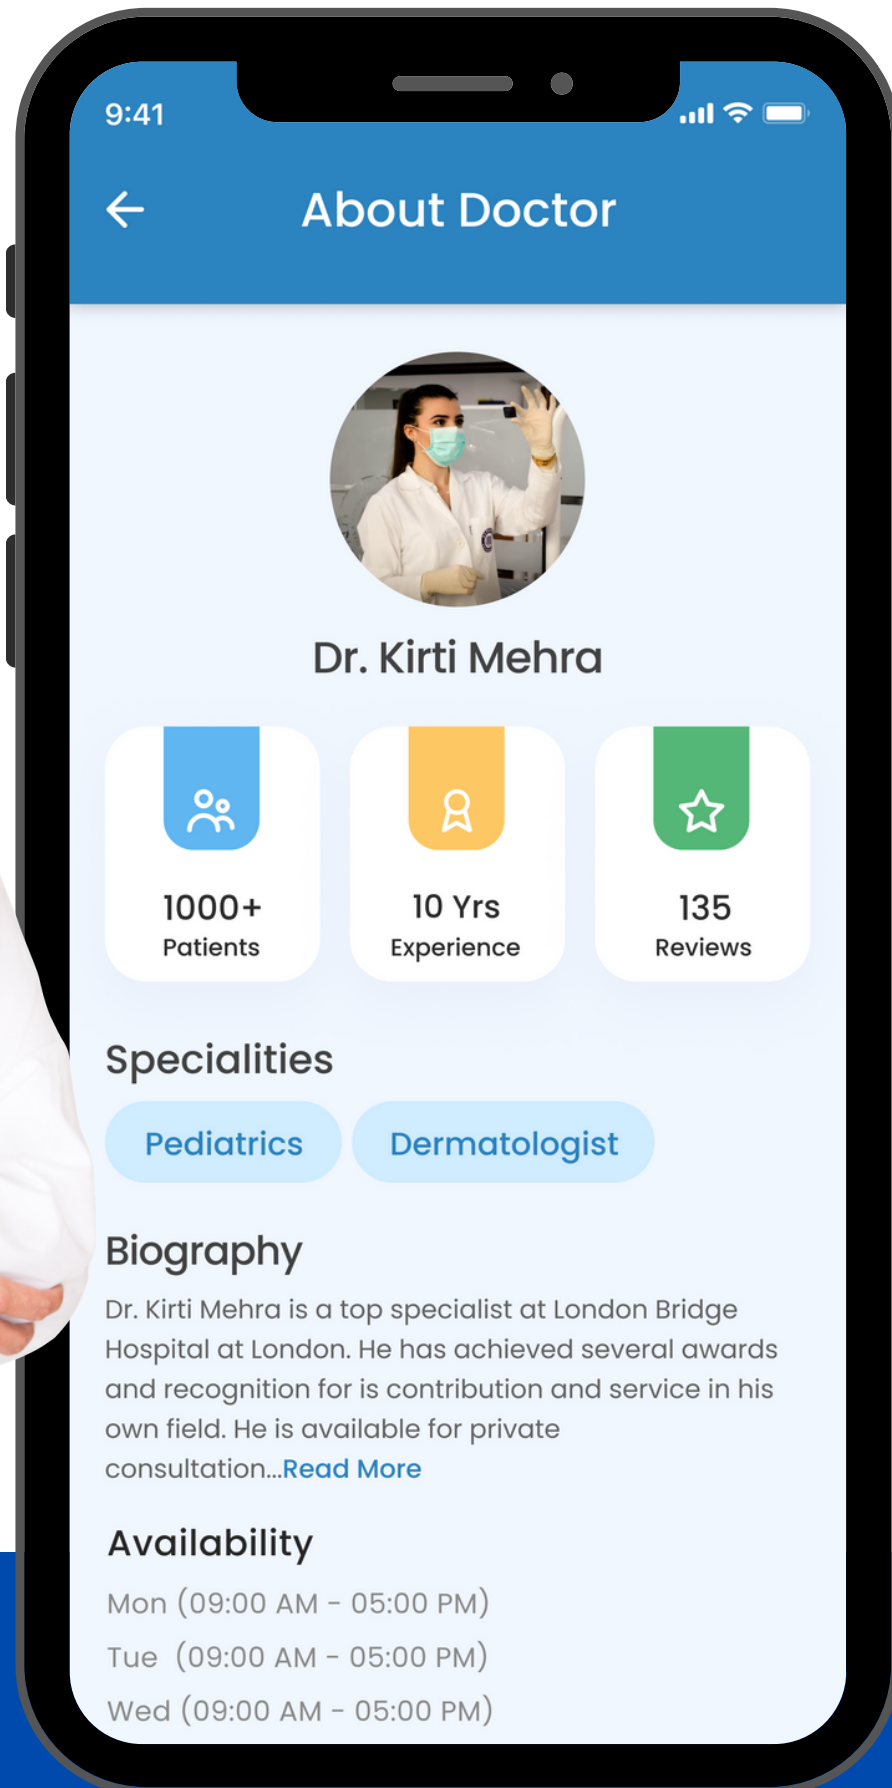

### Phone or Video Consultation

Connect with the right doctor via phone or the video consultation feature.

## Online Booking

Patients can use these apps to schedule appointments online at any time, without having to wait for a longer time.

## Secure Communication

Some apps allow patients to communicate securely with their providers through messaging features within the app.

## Real-time Availability Checking

Apps often show real-time availability of different providers, allowing patients to choose the date and time for their needs.

# Branded Admin Panel

A modernized healthcare business solution to connect patients with doctors anywhere at any time.

### Analytics & Reports

Make data-driven decisions to boost your business with your online medical consultation app.

### Revenue Management

Admin manages the finances and monitors revenue and business growth.

### Customizable Themes

Select your favourite theme & customize it to your requirements.

### Interactive Dashboard

Admin can manage and track users on one platform.

# TOP-NOTCH FEATURES

## Data Analytics

Admins can generate reports and analytics on patient appointments and other metrics, helping in better decision-making.

## Streamlined Scheduling

Admin can streamline the scheduling process for patients by using online booking capabilities.

## Doctor & Patient Management

Admin can check a patient/doctor's profile and manage accordingly.
